

1. K-Love is my favorite radio station and also of many of my friends and co-workers. Through K-Love, I get information about events and artists that would not otherwise be advertised on any other local radio station.
  2. There are no radio stations in this area that offer the quality of programming that K-Love does. K-Love offers a well-prepared, family-friendly presentation of music and information that few local stations could offer.
  3. K-Love is one of few methods of mass media where wholesome, family-safe music, news, and other messages can be heard. We (as a society) surely do not need filthy, demoralizing content coming across our radios. Especially consider the amount of less-than-wholesome or extreme messages that reach our kids. Wouldn't it be better to have something as positive and edifying as K-Love influencing children? K-Love's presence on local airwaves fills a slot that might otherwise be filled with undesirable programming.
